Code of Ethics to Check Malpractices and Plagiarism in Research

Faculty members and students enrolled in academics have to adhere to following ethical standards of research, that includes,

- Avoid any kind of cheating, fabrication, plagiarism in the academic and research work.
- Students and Faculty members to do their research work in accordance of accepted standards.
- All the data that has been collected and used in research work should be original. Only the accurate data, information and research results should be reported.
- Provide the citation for every source of information correctly.
- The institute holds final authority to initiate corrective measures against any kind of malpractice in research.
- Every student submitting a research work, project report, dissertation, or any other such documents to the institute shall submit an undertaking indicating that the document has been prepared by him or her and that the document is his/her original work and free of any plagiarism.
- The undertaking shall include the fact that the document has been duly checked through a Plagiarism detection tool approved by the institute.

Mechanism to detect Plagiarism

The institution check the plagiarism of faculty members and students research work with the help of Savitribai Phule Pune University (SPPU) plagiarism check tool www.turnitin.com/en_us/home or else use open source software <https://smallseotools.com/plagiarism-checker>.

The institute approves the research only after getting plagiarism check certificate. The institute follows UGC guidelines issued from time to time regarding plagiarism. According to revised notification of UGC dated 23rd July 2018, institute decided following corrective measures:

- i) Similarities up to 10% - Minor similarities, accepted.
- ii) Similarities between 10% to 40% - Such student shall be asked to submit a revised script within a stipulated time period.
- iii) A similarity above 40%- Research work is rejected.
